DETAILED ACTION

Receipt of applicants' amendments and remarks submitted May 13, 2009 is acknowledged.

Double Patenting Rejections

1. The nonstatutory double patenting rejection is based on a judicially created doctrine grounded in public policy (a policy reflected in the statute) so as to prevent the unjustified or improper timewise extension of the "right to exclude" granted by a patent and to prevent possible harassment by multiple assignees. A nonstatutory obviousness-type double patenting rejection is appropriate where the conflicting claims are not identical, but at least one examined application claim is not patentably distinct from the reference claim(s) because the examined application claim is either anticipated by, or would have been obvious over, the reference claim(s). See, e.g., *In re Berg*, 140 F.3d 1428, 46 USPQ2d 1226 (Fed. Cir. 1998); *In re Goodman*, 11 F.3d 1046, 29 USPQ2d 2010 (Fed. Cir. 1993); *In re Longi*, 759 F.2d 887, 225 USPQ 645 (Fed. Cir. 1985); *In re Van Ornum*, 686 F.2d 937, 214 USPQ 761 (CCPA 1982); *In re Vogel*, 422 F.2d 438, 164 USPQ 619 (CCPA 1970); and *In re Thorington*, 418 F.2d 528, 163 USPQ 644 (CCPA 1969).

A timely filed terminal disclaimer in compliance with 37 CFR 1.321(c) or 1.321(d) may be used to overcome an actual or provisional rejection based on a nonstatutory double patenting ground provided the conflicting application or patent either is shown to be commonly owned with this application, or claims an invention made as a result of activities undertaken within the scope of a joint research agreement.

Effective January 1, 1994, a registered attorney or agent of record may sign a terminal disclaimer. A terminal disclaimer signed by the assignee must fully comply with 37 CFR 3.73(b).

2. Claims 1, 7-9, 14,15, 19-22, 27-29 are rejected on the ground of nonstatutory obviousness-type double patenting as being unpatentable over claims 2, 11-15 of U.S. Patent No. 6,825,203. Although the conflicting claims are not identical, they are not patentably distinct from each other because the claims of '203 are directed to a topical composition in the form of lotion, cream gel, comprising morphine, lidocaine, and NMDA receptors, ketamine in particular. The ranges of the amounts of the active ingredients in the composition is overlaps with the ranges herein. Not the optimization of results affecting parameters is within the purview of an ordinary skill in the art.

Art Unit: 1617

3. Claims 1, 9, 14, 15, 19-22 and 27 are provisionally rejected on the ground of nonstatutory obviousness-type double patenting as being unpatentable over claims 27-35 of copending Application No. 10/823365. Although the conflicting claims are not identical, they are not patentably distinct from each other because the claims of '365 are directed to a topical composition in the form of lotion, cream gel, comprising morphine, and NMDA receptors, ketamine in particular. The ranges of the amounts of the active ingredients in the composition are overlaps with the ranges herein. Not the optimization of results affecting parameters is within the purview of an ordinary skill in the art.

This is a provisional obviousness-type double patenting rejection because the conflicting claims have not in fact been patented.

Response to the Arguments

Applicants' remarks submitted May 13, 2009 have been fully considered, and found persuasive to overcome the rejections under 35 U.S.C. 103. Particularly, as applicants point out in the remarks, the cited references, either individually, or as a whole, fail to teach or fairly suggest a topical composition comprising morphine and ketamine with topical excipients so that the composition provides the benefit as defined in the claims.

4. **THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period

Art Unit: 1617

will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
